

EXPRIMENT -1

1.Creation of a Simple Cloud-Based Hospital Management System Using Zoho Creator to Demonstrate Software as a Service (SaaS)

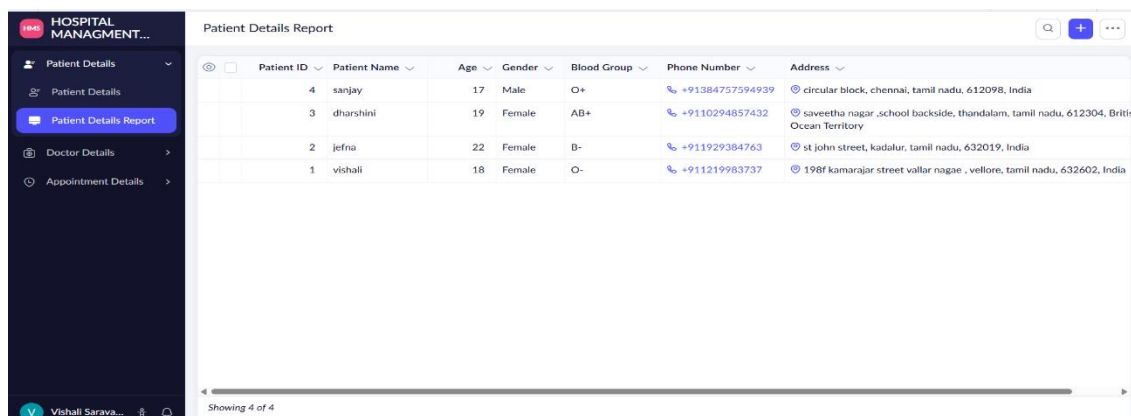

AIM:

To develop a simple cloud-based **Hospital Management System** using **Zoho Creator** and demonstrate the **Software as a Service (SaaS)** model of cloud computing by providing the application over the internet.

PROCEDURE:

1. Opened **Zoho Creator** and logged in using a valid Zoho account.
2. Created a new cloud application named **Hospital Management System**.
3. Designed forms to store hospital information, including **Patient Details, Doctor Details, and Appointment Details**.
4. Added the required fields such as Patient ID, Patient Name, Age, Gender, Doctor Name, Department, Appointment Date, and Contact Number.
5. Configured reports to view, edit, and manage the entered records efficiently.
6. Saved and published the application on the Zoho cloud platform.
7. Accessed the application through a web browser to verify that it works without installing any software on the local computer.
8. Captured screenshots of the application to demonstrate the successful implementation of the **Software as a Service (SaaS)** model, where the application is hosted on the cloud and can be accessed anytime through the internet.

1.1 Patient details

Patient ID	Patient Name	Age	Gender	Blood Group	Phone Number	Address
4	sanjay	17	Male	O+	+91384757594939	circular block, chennai, tamil nadu, 612098, India
3	dharshini	19	Female	AB+	+9110294857432	saveetha nagar ,school backside, thondalam, tamil nadu, 612304, British Indian Ocean Territory
2	jefna	22	Female	B-	+911929384763	st john street, kadalur, tamil nadu, 632019, India
1	vishali	18	Female	O-	+911219983737	198f kamarajar street vallar nagae , vellore, tamil nadu, 632602, India

1.2 Doctor details

HOSPITAL MANAGMENT...		Doctor Details Report						
		Doctor ID	Doctor Name	Department	Qualification	Exprience	Mobile number	Email ID
		4	poorna	Orthpedics	bbbs	13	+91345678912	poorna@gmail.com
		3	ramesh	Dermatology	mbbs,dbbs	3	+91234567891	ramesh@gamil.com
		2	suresh dinesh	ENT	mbbs,psd	12	+91987654321	suresh@gmail.com
		1	honey ini	Orthpedics	mbbs	23	+91123456789	hpney@gmail.com

1.3 Appointment Details

HOSPITAL MANAGMENT...		Appointment Details Report						
		Appointment ID	Patient Details	Doctor Details	Appointment Date	Appointment Time	Disease	Status
		3	dharshini	suresh dinesh	05-Aug-2026	16:36:40	lungs problem	Booked
		2	vishali	honey ini		07:31:00	heart attack	Completed
		1	sanjay	ramesh	30-Jul-2026	10:35:31	fever	Booked

Result:

The Hospital Management System was successfully developed and deployed using Zoho Creator. The application allows users to manage patient, doctor, and appointment details through a web browser. This experiment successfully demonstrates the Software as a Service (SaaS) model, where the software is hosted on the cloud and can be accessed anytime and anywhere over the internet without installing or maintaining it on a local computer.
